

The all-new 3IN1 FEEDERS 500

All the quality features you've come to expect from 3IN1 FEEDERS with the addition of:

1. Roof provides weather protection
2. 500 litre volume
3. Cross straps in the hopper provide rigidity.
4. Cleaning tool provided in a secure location.
5. Secure location to store the tube spanner.
6. Heavy creep panels (50mm flange on the outer edge)
7. Gas struts
8. Roof latch
9. Low 700mm filling height
10. Locking device on the Creep Panel
11. Spring locking device to hold the Adjuster Guard in place (on the Adjuster Gauge)
12. Sight glasses at both ends of the feeder
13. Secure location to store the Adjuster Guards
14. Fully enclosed tine guides
15. Tine guides have a higher opening – easier to pick up with a FEL
16. Gutter on the side panel to drain moisture outside the feeder
